**DEADLINE FOR OFFICIAL/UNOFFICIAL/PERSONAL NOTICES IS WEDNESDAY, 9 A.M.**

## **OFFICIAL**

**MEDICAL CLINICS THANKSGIVING SCHEDULE:** The Launch Area Clinic (MFF) and the Occupational Health Facility (M6-495) will be closed Thursday and Friday, November 25 and 26, 2004. The KSC Visitor Center Clinic will be open from 9:00 am to 7 pm on those days. **FOR MEDICAL EMERGENCIES DIAL 911 AT ANY TIME.** (TA-C2)

**OFFICIAL NASA/KSC U.S. MAIL:** When sending official NASA/KSC U.S. Mail using NASA envelopes or mailing labels, the return address must contain the mail code of the sender. Mail couriers will reject mail which does not contain a return address. (TA-E1)

**PRINTING/COPYING PAPER USERS:** The NASA HQ Code JT has set a goal for each center to reduce the annual use of paper stocks by 10 percent. Suggestions on how to accomplish this goal are printing on both sides of the paper; circulating, posting, and publishing memoranda and other information using email, bulletin boards, routing slips, newsletters; and distributing documents in electronic format via file servers or home pages to avoid making copies on office copiers. Your support in implementing these suggestions will help meet KSC's paper reduction goal. (IT-D1)

**NPG 7120.5A PR CERTIFICATION:** Effective March 26, 1999, NASA policy requires all Procurement Requests (PR's) to be accompanied by a certification stating either that the purchase request action **"is"** or **"is not"** in support of the programs and projects subject to the requirements of NASA Procedures and Guidelines (NPG) 7120.5A, NASA Program and Project Management Processes and Requirement. If the action is in support of a program or project that is subject to the NPG, the certification must then indicate whether: a) all NPG 7120.5A documentation is current and approved, or b) authority to release the solicitation without the required documentation has been granted. An acceptable certification format is located immediately under the internal KSC OP Procurement Home Page header at: <http://www-op.ksc.nasa.gov/> PR's not accompanied by the required certification will not be processed in the Procurement Office until such certification is received. (OP-AM)

**UNAUTHORIZED COMMITMENTS AND RATIFICATIONS:** An unauthorized commitment is an agreement between the Government and a contractor that is not binding; solely, because the Government representative who made it lacked the authority to enter into that **UNAUTHORIZED** agreement on behalf of the Government. Ratification is the act of approving an unauthorized commitment by an official who has the authority to do so. Unauthorized commitments are strongly discouraged and can indicate serious employee misconduct. Individuals making unauthorized commitments may be subject to disciplinary action, and the issue may be referred to the Office of the Inspector General. Only Contracting Officers acting within the limits of their delegated authority are authorized to commit the Government. If you are unsure of your authority, before directing a contractor to take any action, call your project control office, or the Procurement Office at 867-7217, for assistance. (OP-AM)

**VOLUNTARY LEAVE TRANSFER PROGRAM:** The leave transfer program is one of the most popular benefits. To qualify for this program, an employee must establish the existence of a medical emergency (for self or family members) which is expected to result in a requirement for at least 3 days of leave without pay, after the use of existing annual and/or sick leave (earned, not advanced). Leave transfer requests must include documentation from a physician on the medical condition and an estimate of the employee's projected length of absence. If an employee wishes his/her participation in the program announced in the KSC Bulletin, or within his/her organization, he/she may include such a statement in the letter of request. Affected employees would normally initiate requests for a declaration of a medical emergency through supervisory channels; however, if they are unable to do so, their supervisor, family members, or co-workers may initiate the request. Employees wishing to donate leave may do so, subject to certain restrictions. Only earned annual (or restored) leave may be donated, and total donations of leave may not exceed one half of that which would be earned in the remainder of the current leave year. Employees wishing to donate leave are strongly encouraged to donate at least 8 hours at a time, since the effort involved in processing leave transfers is significant. Leave donor forms are available in the BA-B Office and in most Administrative Offices. Donations of leave should be sent directly to BA-B, Room 2507, Headquarters Building. Requests for leave transfer are treated as confidential, unless the employee states otherwise. The names of donors are anonymous and will not be released except as needed to process the donation. If you have questions about the program stop by the Personnel Office Operations Branch, HQ, Room 2507. (BA-B)

**CONTINUING PERIODIC KSC BULLETIN NOTICES:** Organizations and/or individuals submitting KSC Bulletin notices to be run on a continuing periodic basis are reminded it is their responsibility to delete obsolete notices and/or update notices for changes to names, organizations, dates, regulation references, etc. (TA-E1)

**KSC LOCATOR UPDATES:** Mail codes, locations, and phone numbers have changed significantly due to reorganizations. Please review the monthly NASA/KSC Locator computer printout of personnel assigned to your area and update the information as required. Form 13-58, "Employee Locator Information," has been revised. Please discard revisions prior to July, 2001. Form 13-58 is required for all new employees to secure status in the NASA/KSC Locator and the X.500 Personnel Directory. (TA-E1)

**RETIREMENT:** Individuals contemplating retirement should contact Kathleen Ellis at 867-2002 or Lisa Fowler at 867-1883, Retirement Counselors, Personnel Office Benefits Team, for an appointment at least 30 days prior to their projected retirement date. (BA-B)

**BANK OF AMERICA GOVERNMENT TRAVEL CARD USERS:** All NASA employees at Kennedy Space Center who have been issued a Bank of America Government Travel Card are reminded that the card and the account are to be used for official travel and travel related expenses while on TDY. Employees are expected to pay the balance in full each month. Delinquent charges or personal use of the card are cause for cancellation. If you have any questions, please call the KSC Bank of America Agency Program Coordinator at 867-2860. (TA-E1)

**USE OF MULTICOLOR OFFSET PRINTING, COLOR COPIERS, AND COLOR PRINTERS:** Managers and employees are reminded that all color printing/copying must be in accordance with NPG 1490.5A. The NPG states that offset printing in two or more colors is prohibited for work in which additional colors provide no demonstrable value, but are used primarily for decorative effect. The unnecessary use of color products costs the government additional money without additional benefit. The NASA Inspector General has reviewed various agency products and determined that color products have increased significantly. Managers at all centers are to ensure requests for multicolor printing and color copying are only made when the use of multiple colors adds demonstrable value, not just cosmetic appeal, to the product. For more information, contact the KSC Printing Management Officer, Ted Courson, 867-4256. (TA-E1)

**KSC LIBRARY—REQUEST FOR LIBRARY CIRCULATION MATERIAL:** KSC employees are required to submit KSC Form 16-19 to request library materials. A written, work-related justification and the signature of the organization's Library Materials Coordinator (LMC) are also required. The Library will not process and submit invoices for payment for materials personally ordered by employees directly from publishers or vendors. (TA-E1)

**KSC LIBRARY:** A new document, NSTS-60526, "System Requirements Document for the Orbiter On-Orbit Tile Repair Project (TRP)", has arrived at KSC for distribution. #### **WEEKLY NUTRITION TIP: New Labels, New Claims for Soy-Based Foods From the American Council on Exercise**

Soy-based foods received more recognition for their heart-healthy properties, this time from the Food and Drug Administration (FDA). Manufacturers are now allowed to print labels with the claim that soy protein, when combined with a low-fat, low-cholesterol diet, may reduce the risk of coronary heart disease. The FDA believes there are sufficient studies indicating that eating 25 grams of soy protein per day can reduce total and LDL cholesterol levels in the blood. To be able to make this claim, soy products such as vegetable burgers or baked goods containing soy flour must have 6.25 grams per serving.
